

GOETHE
INSTITUT

ArtSpace

ROUNDUP

#4

#4

Virtual
Reality

The Goethe-Institut Nigeria
cordially invites you to:

ArtSpace RoundUp #4

on Saturday, 22.09.2012, 3pm.

Venue: CChub, 6th Floor, 294 Herbert Macaulay Way, Sabo, Yaba, Lagos.

Free entrance!

ArtSpace RoundUp is a series of events on the artistic practice and the space in which it happens, coordinated by the Dream Arts & Design Agency (DADA) for the Goethe-Institut Nigeria.

With widespread use of computer applications becoming more and more a part of our daily reality, online social networking becoming more interactive and "real", and the practice of architecture replying more on computer technologies than ever before, where does spatial programming intersect with computer programming in real world and virtual space? What really is virtual reality?

This theme will be discussed by architects, digital artists and programmers who will then be engaged in a roundtable discussion with key practitioners in the fields of architecture and digital practice.

This project is a cooperation between the Goethe-Institut Nigeria and DADA.
