Dear guests and friends of FATE,

Welcome to FATE's Investors' Forum!

Since January, FATE staff, in collaboration with its board, donors and volunteers have worked diligently to recruit over 80 participants for its 4th & 5th classes of the Programme for Aspiring Entrepreneurs and 29 participants for the 2nd and 3rd classes of the Programme for Emerging Entrepreneurs. We have worked closely with these participants, providing them with business training, consultancy services, mentoring and internship opportunities. In addition, over 130 Alumni from the FATE Programmes are also closely monitored to ensure the sustainability of their businesses. Some of these Alumni are also given access to our Business Incubator, the first privately owned of its kind in Nigeria.

A primary goal of FATE Foundation is to assist our participants in obtaining funds for their businesses by introducing them to potential sources of financing. The purpose of the Investors' Forum is to give our aspiring and emerging entrepreneurs an opportunity to showcase their business ideas, products and services and to introduce them to Nigeria's leading managers and entrepreneurs who could serve as potential debt and equity investors in their businesses.

Today, we have the opportunity to celebrate the dreams and accomplishments of our entrepreneurs.

We invite you to enjoy this event and to share in the entrepreneurial experiences of our participants.
